The product information is not intended to provide complete medical information. We do not offer personalized medical diagnosis or patient-specific treatment advice. You should always obtain complete medical information about your prescription medicine(s) (including their beneficial medical uses and possible adverse effects) by discussing the appropriate use of any medicine(s) directly with your prescribing physician or, where appropriate, other medical advisor. Medical professionals may obtain complete medical information from the product’s monographs. Information on these products may vary by country. Patients, physicians and other healthcare professionals should check with local medical resources and regulatory authorities for information appropriate to their country.
