 **STERINOVA**  
READY-TO-ADMINISTER INJECTABLES

# Sterinova

Located in Saint-Hyacinthe near Montreal, our company has an establishment license from Health Canada since 2015 for the manufacturing of sterile injectable products, including biologics. Sterinova is also inspected by the FDA.

Our manufacturing site relies on state-of-the-art equipment, and the products we manufacture meet the highest standards required by Canadian Good Manufacturing Practices (GMP) guidelines. Sterinova is one of the few pharmaceutical companies in the world dedicated to the manufacture of ready-to-administer injectables. Its production capacity is in the tens of millions of units per year.

***We therefore invite you to consult our products catalog.***

***Please do not hesitate to contact us if you have any questions.***

## Sterinova has a unique approach to Global Trade Item Number codes (GTINs) and barcode symbols

Unique GTIN for each primary container with barcodes expressed in two ways:

This approach allows more flexibility depending on the type of information used by each customer.

At **Sterinova**, we believe that growth opportunities are very important. We continuously evaluate the needs of hospitals and community pharmacies to identify products that will meet health professionals' specific needs.

*If you have a product, an idea or a need for which you wish to discuss, do not hesitate to contact us.*
